Sir,

SUB - Enhancement of T A to the Engineer Officer of the Trust Board

I have the honour to state that the Engineer Officer attached to the Board who is drawing a Conveyance Allowance of Rs 100/- p m as sanctioned in G O No L 17621-4/11 13-46-125 dated 28-6-1947 has submitted a representation stating that the Conveyance Allowance sanctioned to him is quite inadequate considering the extensive area over which he has to travel every day for the inspection of works, that the total amount of work to be done during this year is to the tune of Rs 15 lakhs, besides the drainage works he is expected to carry out to the tune of Rs 5 lakhs during the year, as the City Drainage Division is amalgamated with the Trust Board as per G O No L 4090-7/11 154-44-5 dated 24-11-1945 and as the Engineer Officer of the Board has to attend to the works of the Drainage Division also, thus making him responsible for the works of the two Divisions, involving considerable touring work, and requesting for these reasons that his Conveyance Allowance be recommended for enhancement by at least 33 1/3% as has been done in the case of the Assistant Engineers working under him

It may be stated in this connection that the Conveyance Allowance of the two Assistant Engineers on the staff of the Board who were drawing a Conveyance Allowance of only Rs 75/- p m till recently was enhanced by 33 1/3% as per G O No L 4535-8/11 14-48-30 dated 1/8-11-1948, on the recommendation of the Board thus enabling them to draw a C A at Rs 100/- p m The recommendations made in these cases are purely in consideration of the high cost of the maintenance of motor vehicles in these days and the

vast area over which these Officers are expected to travel every day

For the same reasons, what the Engineer Officer says is that while the Assistant Engineers who are only Sectional Officers entrusted with certain Sections of works, are granted enhanced Conveyanace Allowance as above, his case for similar treatment deserves equal if not greater consideration, as he as to supervise the works of all these Assistant Engineers involving extensive touring

The request made by the Engineer Officer is very reasonable and deserves all consideration

This was placed before the Board for consideration at its meeting held on 21-12-1948 and the Board in full sympathy with the Engineer Officer passed the following resolution -

> "Resolved that the request of the Engineer Officer for enhanced conveyance allowance at 33 1/3% be approved and recommended to Government for sanction"

I accordingly request that as resolved by the Board, sanction of Government may kindly be obtained to the enhancement of the Conveyance Allowance drawn by the Engineer Officer by 33 1/3% for the reasons given above

The representation of the Officer is herein enclosed for favour of reference

Yours faithfully,

CHAIRMAN

THE CHAIRMAN,
City Improvement Trust Board,
BANGALORE

Sir,

Re enhancement of T A to the Engineer Officer

I have the honour to bring to your kind notice that I am drawing a C A of Rs 100/- p m This C A is quite insufficient considering the extensive inspection the Engineer Officer is making The total amount of work to be done by the Trust Board during this year is to the tune of Rs 15 lakhs and this involves frequent and extensive touring by the Engineer Officer

2 In addition to this, the Engineer Officer is also the Special Officer of the Drainage Division As per Budget, this Division is expected to carry out works to the tune of Rs 5 lakhs In short, the Engineer Officer has been carrying on works of two divisions

3 Recently, the Government was pleased to raise the C A of the Assistant Engineers in the Trust Board from Rs 75/- to Rs 100/- These Assistant Engineers are in charge of only certain Sections and the Engineer Officer has to supervise the works of all these Assistant Engineers which is certainly involving extensive touring

4 In these circumstances, I request that the C A may kindly be recommended to the Board be raised by at lea 33 1/3% as it has been done in the case of the Assistant Engineers

Yours faithfully,
R Nagaraja Rao 13/12/48
ENGINEER OFFICER

The request of the Eo is very reasonable, and I strongly recommend the same to the Board for
